Time to Act: making your voice powerful

- A letter from you is more powerful than no letter. Handwritten letters are more powerful than typed letters.
- Letters written with your own words are more powerful than letters with a standard wording. If you want to edit our letters you can download them from the Sheffield Quakers website
<http://www.sheffieldquakers.org.uk/news/1290/16-feb-2015>
- As well as sending a letter to your MP (and/ or PPC) you can combine your action with others to make it even more powerful. If you wish to do this, you can copy your letter to Heather Hunt via her envelope at the Quaker Meeting House, so she can
 1. report back to a later Meeting to say what action we have taken jointly and/ or
 2. share this with Sheffield Climate Alliance (SCA) so they can see what action has been taken across Sheffield. They are also monitoring letters sent to MPs/ PPCs and arranging meetings with them to discuss their and their Party's climate policies.

Please make a note on Heather's copy if you are happy to share your letter with SCA. Your personal contact details will only be used by them to monitor this campaign and will not be shared with anyone else.
